

SURVIVAL IN ALASKA PROJECT:

A person in dark winter gear is seen from behind, skiing across a vast, flat, snow-covered landscape. In the background, a range of jagged, snow-capped mountains rises against a clear blue sky. The scene conveys a sense of isolation and adventure in a harsh, cold environment.

- Fishing Rod x1- \$25.00
- Fire starter(flint)-\$12.00
- First Aid Kit - \$25.00
- LifeStraw Personal Water Purifier x2 \$26.00
- 8x9 Foot long tarp \$ 9
- Winter jackets-x3 \$135.00
- Sleeping bags X3 \$60.00
- Portable Camping pots & pans \$ 20.00
- Total:\$378

Shelter plan

For the shelter plan we will build a platform out of logs we get from chopping nearby trees with our axe and start building a Hut and we will place our sleeping bags to keep warmth and sleep comfortably.

Water Plan

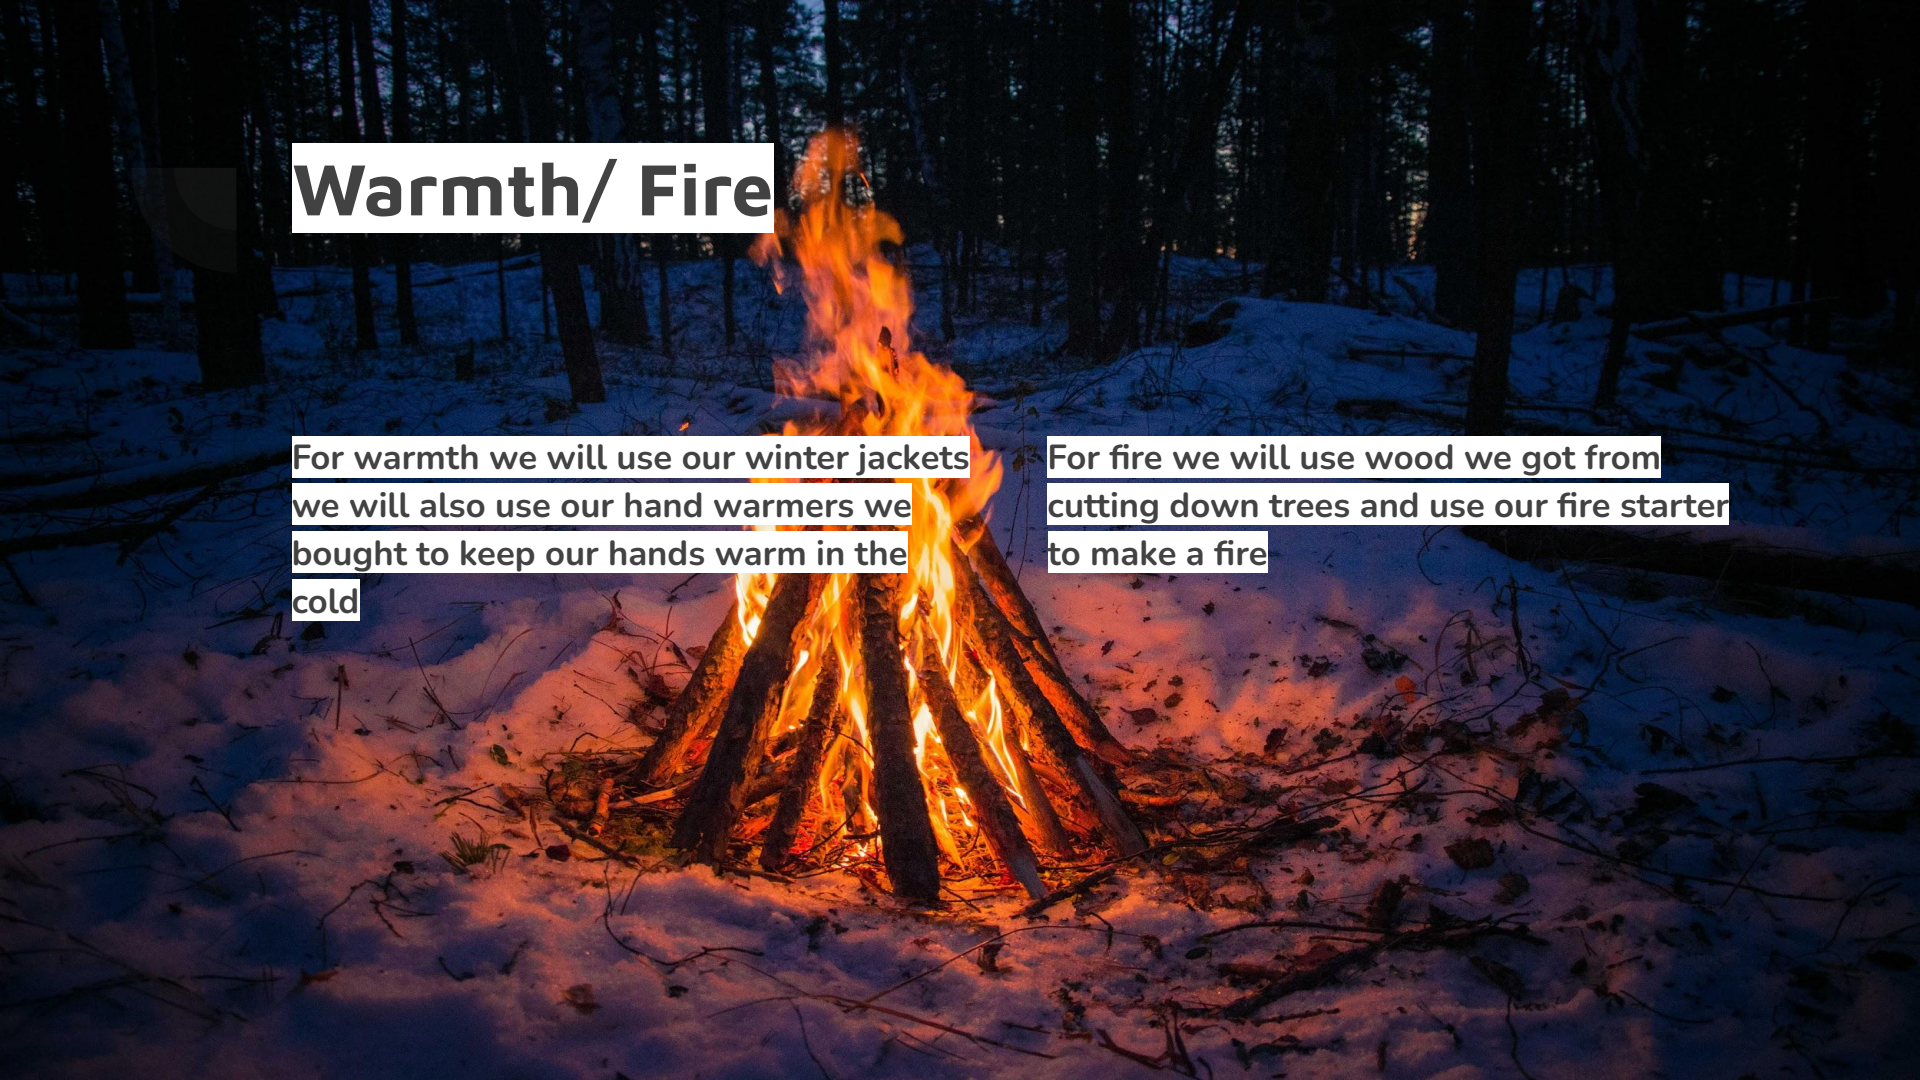

For the water plan we have two LifeStraw Personal Water Purifier so that we can safely drink out of any nearby water source and we will store leftover water inside our water jugs so we won't have to go outside constantly.

Food plan

For our food We will eat MRE's Military food. We will also be Ice fishing in case we run out of our MRE food. If we also find wild berries we will eat that as well. We will start a fire with our fire starter and we will cook the fish with a pan that we bought.

A bonfire made of logs is burning brightly in the center of a snowy forest at night. The fire is the main source of light, casting a warm orange glow on the surrounding snow and trees. The background is dark, with the silhouettes of many trees visible against the night sky. The snow on the ground is uneven, with some areas appearing more disturbed than others.

Warmth/ Fire

For warmth we will use our winter jackets
we will also use our hand warmers we
bought to keep our hands warm in the
cold

For fire we will use wood we got from
cutting down trees and use our fire starter
to make a fire

Safety slide

For our safety we bought a first aid kit box that has everything we need in case one of us gets hurt we also bought walkie talkies and gave one to our families back home in case we get badly hurt we can let them know.

Map

For our destination we will be staying in cooper landing Alaska
